

## PWM SERIES

These high volume wet rotor pumps are durable, reliable and energy efficient. Their power and simplicity of operation make them the perfect choice for many water gardening applications, especially waterfalls.

### APPLICATIONS

- Waterfalls
- Streams
- Ponds
- Water gardens
- Fountains
- Water displays
- Biofilters
- UV filters
- Koi ponds
- Must be fully submerged

### FEATURES

- Three convenient model capacities for accurate sizing
- Energy efficient - uses up to 40–60% less electricity than conventional direct drive pumps
- No seals and no oil for consistent and safe operation in any habitat
- Removable bottom screen for in-line installation flexibility
- Removable 90-degree elbow included

### ORDERING INFORMATION

| PWM Series | Item No. | Amps | Watts | Cord (ft) | Intake MNPT | Discharge FNPT | Max Flow (GPH) | Gallons Per Hour @ Height |      |      |      | Max Height | Max PSI |
|------------|----------|------|-------|-----------|-------------|----------------|----------------|---------------------------|------|------|------|------------|---------|
|            |          |      |       |           |             |                |                | 1'                        | 5'   | 10'  | 15'  |            |         |
| PWM2600    | 517250   | 1.8  | 155   | 20        | 1-1/2"      | 1-1/2"         | 2550           | 2550                      | 1560 | -    | -    | 10'        | 4.3     |
| PWM3900    | 517251   | 2.4  | 280   | 20        | 1-1/2"      | 1-1/2"         | 3240           | 3240                      | 2700 | 1380 | -    | 12.7'      | 5.5     |
| PWM5200    | 517252   | 5.0  | 410   | 20        | 1-1/2"      | 1-1/2"         | 4080           | 4080                      | 3460 | 2460 | 1080 | 20'        | 8.6     |

### PERFORMANCE
