SPRING CHECKLIST

Is your "pond toolbox" ready for spring?

Review our checklist of product recommendations below.

HIGHLY RECOMMENDED

BENEFICIAL BACTERIA

Why? It creates a healthy environment in your pond, improves dissolved oxygen levels and reduces odors. It seeds and maintains biological filters, metabolizes dead algae and dissolves away organic sludge. *Our favorites:* [Microbe-Lift PL](#), [Webb's Water Gardens All-Season Pond Bacteria with Barley - Water Soluble Packets](#), [Webb's Water Gardens All Season Pond Bacteria - Liquid](#), [Evolution Aqua Pure Pond Bomb](#)

POND NET

Why? Bottom leaves and debris disrupt the overall health and clarity of the pond. Easily remove residual leaves and debris from the previous season with an extendable handled net.

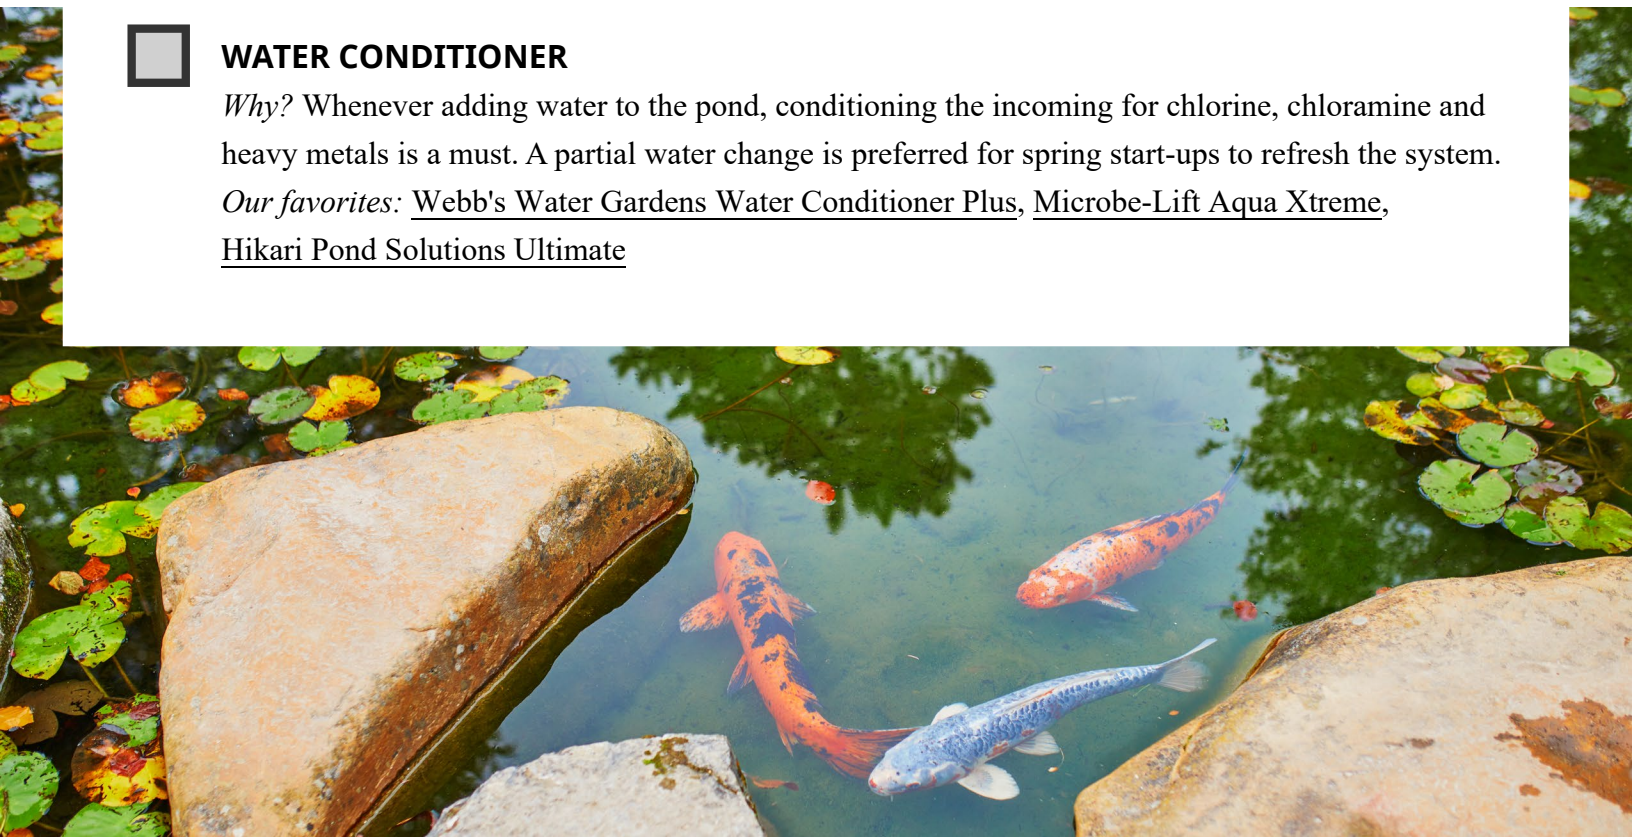

Our favorites: [Laguna Hydra Nets & Accessories](#)

WATER CONDITIONER

Why? Whenever adding water to the pond, conditioning the incoming for chlorine, chloramine and heavy metals is a must. A partial water change is preferred for spring start-ups to refresh the system.

Our favorites: [Webb's Water Gardens Water Conditioner Plus](#), [Microbe-Lift Aqua Xtreme](#), [Hikari Pond Solutions Ultimate](#)

NICE TO HAVE

POND VACUUM

Why? Removing bottom debris and algae can often be arduous. Vacuums are perfectly suited for the job of suctioning sediment before it burdens pond clarity and health.

Our favorites: Oase Pondovac 3, Matala Pond Vac II (best for smaller ponds),
Matala Power-Cyclone Pond Vacuum (best for larger ponds)

SUBMERSIBLE PUMP CLEANING SOLUTION

Why? Your pump is the lifeblood of your pond. Cleaning solutions keep your pump running like new. They quickly clean calcified, dirty pumps within minutes.

Our favorites: Pondmaster PumpGuard Water Pumps Maintenance Solution,
Aquascape Pump Cleaner Maintenance Solution

PLANT FOOD

Why? Plants add oxygen, shade and luster to any water garden or koi pond. Feeding helps maximize the size and beauty of all aquatic plants and flowers.

Our favorites: Laguna Once-A-Year Fertilizer Pond Spikes 16-9-12,
Pondtabbs Aquatic Plant Food Tablets 10-14-8, Microbe-Lift Bloom & Grow

AERATION SYSTEM

Why? Aeration effectively oxygenates ponds - promoting aerobic bacteria, helping to keep water healthy, clean and clear.

Our favorites: Aquascape 2-Outlet Aeration Kit, Matala EZ Air Pro 3 Plus Kit
